To,
Shri Navin Choudhary
Founder
Transformational School of Business

Dear Shri Navin,

We are happy to recall one memorable session by you for our teachers few years back in which you have shared about “How a Teacher can make huge difference to the student’s life thru’ their conversations and conduct”

We especially liked the four factors of making a difference in the lives of students and teachers in that session.

- i) Raising the commitment level of students and teachers.
- ii) Ability to show the possibility where none seems existing.
- iii) Inculcating the habit of “Taking action here and now”
- iv) Improving the quality of life for kids, their parents and teachers.

Here I would also like to mention about your book “**You Are A Born Winner**” which talks about 4 pillars of Transformations, 4 success steps for success and 16 result oriented habits.

I wish all the teachers and students should get hold of this book and try to answer the questions given in this book and rate themselves on 30 criteria such that they can increase their integrity, team Building and leadership score by rating themselves at www.hrscore.in .

We really appreciate your efforts in writing such a wonderful book and developing the software for improving the education system and for developing the performance quality in our country people.

With best wishes

Ms. Anjali Bowen

Principal
