## Letter of appreciation

Date:25/02/2019

To,

Shri Navin Choudhary

Founder

Transformational School of Business, Mumbai

Dear Mr. Navin,

I have gone thru' your book "you are a born winner" and its Hindi version "janmajaat vijeta" and found it amazingly beneficial for myself, Teachers and students.

Many teachers and students have also gone thru' this book and expressed huge appreciation for the book.

For me, the introduction itself, where it mentions that we are already a winner from birth is the most mind blowing example. Also, the chapter "communicate to make a difference" is very telling when it says that any problem can be solved and the quality of life can be drastically improved with the help of the right communication.

I wish, this would have been the part of curriculum for teachers training and CBSE for std. 9<sup>th</sup> and 11<sup>th</sup> such that our teachers and students quality can improve hugely and our education quality can match with the quality of education of Developed nation.

Thanking you for your efforts in writing the book.
